## About the Webinar

The Illinois Legislature enacted two laws that apply to Licensed Clinical Psychologists. Both statutes require training and are required before you renew your license on September 30, 2022. Both require that you retain documented proof of the training. The training provided by the Illinois Psychological Association will count towards meeting the licensee's required continuing education hours. Even if you have already obtained your required [24] CE, this training must also be taken.

Why take this training?

- ✓ This training offered by the Illinois Psychological Association count towards meeting your required continuing education hours.
- ✓ Psychologists across the entire state of Illinois will enjoy ease of access as IPA will present the CE training in interactive webinar format.
- ✓ The combined trainings are affordable for IPA members at \$30.
- ✓ The CE training will be applicable to private and group psychological practices.
- ✓ Some associations and attorney are offering this training. However, the CEs may not be APA approved; the cost may be higher; the webinar may not be interactive as required, and the content may not be applicable to psychologists.
