About the Webinar

The Illinois Legislature enacted two laws that apply to Licensed Clinical Psychologists. Both statutes require training and are required before you renew your license on September 30, 2020. Both require that you retain documented proof of the training. The training provided by the Illinois Psychological Association will count towards meeting the licensee's required continuing education hours. Even if you have already obtained your required [24] CE, this training must also be taken.

Why take this training?

- ✓ This training offered by the Illinois Psychological Association count towards meeting your required continuing education hours.
- ✓ Psychologists across the entire state of Illinois will enjoy ease of access as IPA will present the CE training in interactive webinar format.
- ✓ The combined trainings are affordable for IPA members at \$30.
- ✓ Each combined topic is scheduled once in the Spring and once in Summer as a two-and-a-half-hour webinar.
- ✓ The CE training will be applicable to private and group psychological practices.

- ✓ Trainings offered by other entities may not qualify for APA continuing education credits, which are approved by the Department of Professional Regulation. This training does.

Sexual Harassment Prevention Training (60 minutes)

Sexual harassment prevention training is required for all persons who hold a professional license issued by the Division of Professional Regulation (DPR) for professions that require CE to renew.

The law requires licensees to complete a one-hour CE course in sexual harassment prevention training. This CE requirement is included in the number of hours already required under the individual Acts and Rules and does not increase the number of hours required to renew a license. If you are a licensed psychologist, you must complete this training before you renew your license at the end of September 2020. This one-hour training counts towards the twenty-four hours required for every two-year licensing period.
